Definition of a Racist Incident

It will be important that schools think through for themselves the implications/ definition of the term 'racist incident'. Recommendation 12 of the Macpherson Report on the Stephen Lawrence Inquiry published in February 1999 defined a racist incident as "any incident which is perceived to be racist by the victim or any other person."

Types of racist incidents that can occur are:

- Physical assault against a person or group because of colour, ethnicity or nationality
- Use of derogatory names, insults and racist jokes
- Racist graffiti
- Provocative behaviour such as wearing racist badges or insignia.
- Bringing racist material into the Academy
- Verbal abuse and threats
- Incitement of others to behave in a racist way.
- Racist comments in the course of discussion
- Attempts to recruit others to racist organisations and groups.
- Ridicule of an individual for cultural difference e.g., food, music, religion, dress
- Refusal to co-operate with other people because of their appearance, ethnic origin or nationality.
- Written derogatory remarks.
- Any of the above forms of racial harassment, or any other discrimination by employers in connection with work placements or work experience
