**SCHOOLS FRAMEWORK HEALTH AND SAFETY**  
**&**  
**WIRRAL SCHOOLS SERVICES LIMITED (WSSL) JOINT**  
**POLICY & GUIDANCE**

Policy Owner:	Tom Moseley
Date to be Reviewed:	November 2024
Date Adopted:	26/09/2023
Version History:	3.0

Date	Amendments	Officer
27/08/2019	Revised 3.26 Violence and Aggression	Lorraine Adamson
09/02/2021	Reformatted and updated as follows, 1) Head teachers responsibilities aligned with HSG 65, i.e. Plan, Do, Check & Act 2) Categories for managed hazards, i.e. General, Building, Grounds, Rooms, Task, Equipment, Individual and Supplementary 3) In the management of H&S the Head teacher is responsible for the implementation on behalf of the Governing Body 4) Requirements to carry out specific risk assessments for each of the categories 5) Curriculum Activities – Radiation Protection Supervisor to be named (if required) 6) Buildings – Asbestos - includes redefined roles for Head teacher and Nominated Person 7) Grounds – new hazard, i.e. Snow and Icy Conditions 8) Task – new hazard, i.e. Vibration 9) Task – First Aid – requirement to carry out First Aid Needs Assessment 10) Equipment – new hazards, i.e. Lifting Equipment & Pressure Systems 11) Individual – new hazards, i.e. Infection Control & Health Surveillance 12) Individual – specific responsibility for Governing Body to ensure that there is a Supporting Pupils at School with Medical Conditions policy 13) Supplementary – new hazard, Swimming & Hydrotherapy Pools (if required)	Tony Dean
06/04/2022	Updated with H&S Audits (3.6)	Tony Dean
17/08/2022	Asbestos updated to include Asbestos Management Plans and surveys for school with Type 1	Tony Dean
5/12/2022	Updated emergency planning section 10.1 to include adverse weather e.g. extreme heat	Debbie Peers
18/09/2023	Updated responsibilities from PFI Contract Manager to WSSL/Dalkia	Tom Moseley

# Health & Safety Management system - introduction

Your school's health & safety policy is the start of your Health & Safety Management System (HSMS). The purpose of a HSMS is to ensure that all relevant health and safety requirements are identified and that there is a structure in place for carrying them out to the correct standard and the required frequencies.

The HSMS promotes a cyclical approach to health and safety management that operates over an annual basis and is then repeated, with the aim of continually improving health and safety in the school. This is in line with the Health & Safety Executive's Managing for Safety HSG65.

Health and safety management requirements and statutory inspection and maintenance requirements that need to be met by schools are presented in the various sections of the HSMS.

The diagram below shows a pictorial representation of the Health and Safety Management System or management cycle.

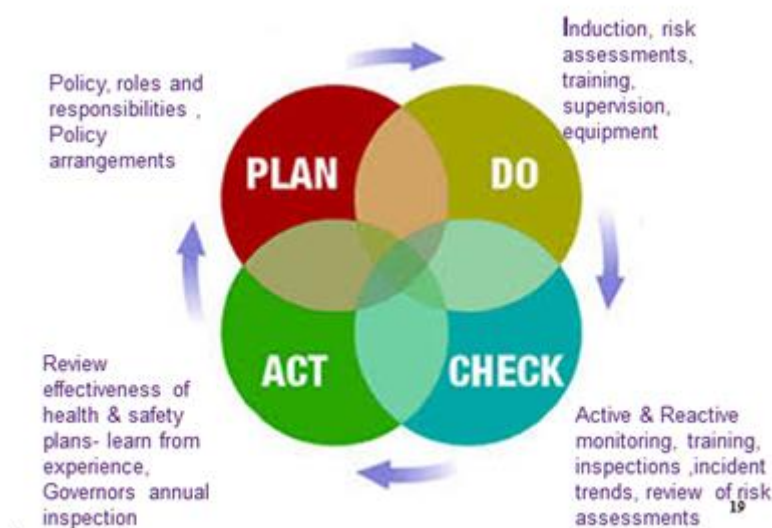

Figure 1: Health and Safety Management System (HSMS)

- In the **policy** (Plan) stage schools are stating what it is they are going to do with regards to health and safety and ensuring that they have a management structure in place to achieve this (roles and responsibilities). They are making a commitment.
- In the **planning and implementation** (Do) phase, schools are **doing** what they stated they would do.
- In the **monitoring** (Check) phase, schools are **checking** to ensure they are doing what they said they would do.
- In the **evaluating and reviewing** (Act) phase, schools are looking at their overall health and safety performance over the year (successes and failures) and then **acting** upon the findings to ensure their policy, arrangements and organisation are modified in order to build on successes and iron out failures.

# SCHOOLS' FRAMEWORK HEALTH AND SAFETY POLICY

South Wirral High School

## 1. INTRODUCTION

### 1.1 Health and Safety at Work etc Act 1974

This Act places a duty on all employers to safeguard so far as is reasonably practicable the health, safety and welfare of all their employees. In addition to this, duties extend to cover the health and safety of persons not employed but who may be affected by the work activities undertaken such as pupils, visitors, contractors, etc.

The Governing Body retains the above responsibilities under local management of schools as an employer it is important to realise that all employees have legal duties under the Health and Safety at Work Act, to co-operate with their employer so far as is reasonably practicable to ensure a safe and healthy place of work. This local Statement of Safety Policy is not intended to replace the Wirral Local Authority's Policy but to detail individual schools' Arrangements and Organisation for Health and Safety, taking into consideration arrangements under the PFI contract.

### 1.2 General Statement of intent

The Governing Body of South Wirral High School in partnership with WSSL will strive to achieve the highest standards of health, safety and welfare consistent with their responsibilities under the Health and Safety at Work etc. Act 1974 and other statutory and common law duties to provide a safe and healthy work place and working environment for all its employees, pupils, visitors and other persons who may be affected by its activities.

The Head teacher and Governing Body will ensure that the Local Authority's Health and Safety policy is implemented, all Management Arrangements identified in the policy and further guidance are followed and monitored throughout the school.

WSSL will take all reasonable steps to ensure the health, safety and welfare of all those who attend, work in, visit and use the school premises, for which it is responsible.

This policy will be brought to the attention of, and/or issued to all members of staff on induction and annual refresher at the start of each school year.

It is essential for the success of this Safety Policy that all employees recognise their responsibilities under Sections 7 and 8 of the Act in co-operating with management on health and safety issues and taking care of themselves and other persons whilst at work. It is also essential that there is co-operation and effective communication between the school and WSSL on all matters affecting health and safety.

The Health and Safety Policy will be reviewed on an annual basis and the Management Arrangements will be implemented.

**Signed:** Richard Barker (Chair of Governors) **Date:** 26/09/2023

**Signed:** Simon Goodwin (Head teacher) **Date:** 26/09/2023

Signed: Beth McCabe (Dalkia)

Date: 22/11/23

**Signed:** ..... (SPC Manager on behalf of WSSL)

Date:

## 2. ORGANISATION

As the employer, the Local Authority has overall responsibility for health and safety in Community Schools, Community Special Schools, Voluntary Controlled Schools, Maintained Nursery Schools and Pupil Referral Units.

In Foundation/Trust Schools, Foundation/Trust Special Schools, Voluntary Aided Schools, Academies and Independent Schools, the responsibility for health and safety rests with their employer, The Governing Body.

To achieve successful implementation of the safety policy there should be clear lines of communication throughout the organisation.

Whilst the ultimate responsibility for health and safety remains with the employer a wide range of functions may successfully be delegated to the Head teacher, but the duty to comply with statutory requirements cannot be delegated away from the employer.

### 2.2. Responsibilities of the Governing Body

- A. Formulating a Health and Safety statement detailing the responsibilities for ensuring health and safety within the establishment;
- B. Regularly reviewing health and safety arrangements and implementing new arrangements where necessary;
- C. Providing appropriate resources within the establishment's budget for the implementation of the attached arrangements;
- D. Receiving from the Head teacher or other nominated member of staff reports on health and safety matters and reporting to the Local Authority or other body as necessary. This will include receiving the school's Inspection Checklist or similar which reviews the establishment's health and safety annual performance.
- E. Promoting a positive health and safety culture and high standards of health and safety within the establishment.

## 2.3. Responsibilities of the Head teacher

In line with the Schools Health & Safety Management System, the Head teacher has responsibilities for:

### PLAN

- Overall responsibility for the day to day management of health and safety in the school;
- Comply with any direction given by the LEA concerning the health and safety of persons on the school's premises or taking part in any school activities;
- To ensure that they have access to competent advice on health and safety e.g. Wirral Council's Health & Safety SLA;

### DO

- Creating and encouraging a positive and pro-active Health and Safety culture across the school;
- The implementation of the establishments health and safety Management Arrangements which form part of this policy;
- In implementing the Management Arrangements, delegating specific tasks to other members of staff;
- It is clearly understood by everyone concerned that the delegation of certain duties will not relieve the Head teacher from the overall day to day responsibilities for health and safety within the establishment;
- Ensuring that the school has a defined system in place for undertaking suitable and sufficient risk assessments;
- Ensuring appropriate systems are in place to ensure that the premises, plant and equipment are maintained in a serviceable and compliant condition;
- Ensuring all staff are provided with suitable and sufficient information, instruction and training on health and safety issues;
- Ensuring that Health and Safety investigations are carried out by competent person/s;
- Communicating the policy to all relevant parties, including support, temporary and supply staff, contractors, volunteers and third-party users;
- Ensuring that consultation arrangements are in place for staff and their trade union representatives (where appointed) and recognizing the rights of trade unions in the workplace;
- Ensuring that the establishment has emergency procedures in place and has a Business Continuity Plan for emergency and crisis situations;
- Ensuring the staff have been served with the policy (see appendix 'A')

### CHECK

- Actively monitor the implementation of the Management Arrangements;
- As part of the emergency arrangements, schedule tabletop exercises to simulate emergency situations to assess the effectiveness of the emergency plan and amend as required;
- Ensuring that the annual school's Inspection Checklist (see Forms) is completed and together with the resulting action plan, forwarded to the Governing Body and Health & Safety Team;

### ACT

- Ensure that any actions arising from the annual school's Inspection Checklist, through monitoring and consultation arrangements and audits are implemented as required;
- Advise Governors of the areas of health and safety concern which may need to be addressed by the allocation of appropriate resources, e.g. time, effort, finance;
- Reporting to the Local Authority (where they are the employer) any hazards which cannot be rectified within the establishment's budget;
- Provide updates on the monitoring of the implementation of the Management Arrangements to Governors.

## 2.3. Responsibilities of Employees

Under the Health & Safety at Work etc. Act 1974 all employees have general health and safety responsibilities. Staff must be aware that they are obliged to take care of their own health and safety whilst at work along with that of others who may be affected by their actions. All employees of the establishment have the responsibility to:

- Take reasonable care for the health and safety of themselves and others in undertaking their work.
- Comply with the school's health and safety policy and procedures at all times
- Report all accidents and incidents in line with the Local Authority's reporting procedures and WSSL's reporting procedures
- Cooperate with school management on all matters relating to health and safety;
- Not to intentionally interfere with or misuse any equipment or fittings provided in the interests of health, safety and welfare;
- Report all defects in the condition of premises or equipment and any health and safety concerns immediately to their Line Manager;
- Report immediately to their Line Manager any shortcomings in the arrangements for health and safety;
- Ensure that they only use equipment or machinery that they are trained, competent and authorised to use.
- Make use of all necessary control measures and personal protective equipment provided for safety or health reasons.

## 2.4. Responsibilities of Wirral Schools Services Ltd (WSSL)

Wirral Schools Services Limited is the Special Purpose Company set up to manage the Wirral PFI Schools Project. It does not employ any personnel, but has a management services contract with Semperian.

Chartwells is a direct contractor for Wirral Schools Services Limited and provides catering services and personnel to deliver the Catering Service to the PFI Schools and responsible for its employees and any subcontractor responsible for the delivery of the catering services.

Dalkia LTD is a direct contractor for Wirral Schools Services Limited and provides the Facilities Management delivered through a combination of directly employed staff and specialist support and responsible for its employees and any subcontractor responsible for the delivery of the Facilities Management services. It is also responsible for all statutory and mandatory legislation and advice to any party carrying out or performing duties in relation to the Wirral Schools Services Limited assets within the school boundaries.

"Service Providers" - Together, Chartwells and Dalkia LTD are the "Service Providers".

"WSSL" - Wirral Schools Services Limited and / or Chartwells and / or Dalkia LTD are "WSSL".

## 2.5 Summary of Duties and Responsibilities

Their responsibilities in terms of Health and Safety are listed under the Management Chain section of this policy.

Level 1 SCHOOL/CYPD	Level 1 WSSL
<p><b>School Business Manager (on behalf of the school) will:</b></p> <ul style="list-style-type: none"> <li>• Liaise with Governors / CYPD on policy issues.</li> <li>• Chair school Health &amp; Safety Committee and ensure policy is activated.</li> <li>• Ensure that problems implementing the Health &amp; Safety policy are reported to the CYPD/appropriate authorities.</li> <li>• Develop Emergency Procedures</li> <li>• Arranging fire drills during school operational hours</li> <li>• Conduct fire drills each term (announced &amp; unannounced) to ensure the safe and speedy evacuation of all parties outside of school operational hours</li> <li>• Take day-to-day responsibility for all health and safety matters in school.</li> <li>• Fire Safety Training of school staff and students.</li> <li>• Appointing and training Fire Wardens and Fire Marshals during the school **day operational hours and during ALL Third Party Use.</li> <li>• Accident Reporting and investigation for school staff and students.</li> <li>• Manage risk assessment process – school activities</li> <li>• Developing and reviewing the safety training programme for school staff and students.</li> <li>• Statutory Inspections – see WSSL section</li> <li>• Safety tours of the premises</li> <li>• Regular safety inspections of departments.</li> <li>• Asbestos management</li> <li>• Fire Risk Assessment – school management and Third Party Lettings.</li> <li>• Display of Information i.e. Health &amp; Safety Law Poster, Employers Liability Certificate of Insurance</li> </ul> <p>"School Operational Hours" means each / all times that the school is using the facility for educational or training needs</p>	<ul style="list-style-type: none"> <li>• Safe provision of FM Services. Correct delivery of planned, preventative maintenance</li> <li>• Asbestos management</li> <li>• Develop Emergency Procedures</li> <li>• Assisting fire drills during school operational hours.</li> <li>• Arranging fire drills outside of school operational hours i.e. for Caretakers / Cleaners.</li> <li>• Fire Risk Assessment</li> <li>• Fire Safety Training of FM Staff</li> <li>• Between Chartwells and Dalkia we do not have any Fire Wardens/Marshals on site and this is solely a school responsibility.</li> <li>• Accident reporting and investigation for Service Provider.</li> <li>• Manage risk assessments – Service Provider Activities</li> <li>• Legionella Management including assessments &amp; control scheme</li> <li>• Testing local exhaust ventilation from fume cupboards and craft, design and technology equipment. Developing and reviewing the safety training programme for Service Provider staff</li> <li>• Safety tours of the premises</li> <li>• Statutory Inspections – will organise all but will recharge school if necessary e.g. pressure testing on curriculum equipment.</li> <li>• Display of information i.e. Health &amp; Safety Law Poster, Employers Liability Cert of Insurance</li> </ul>

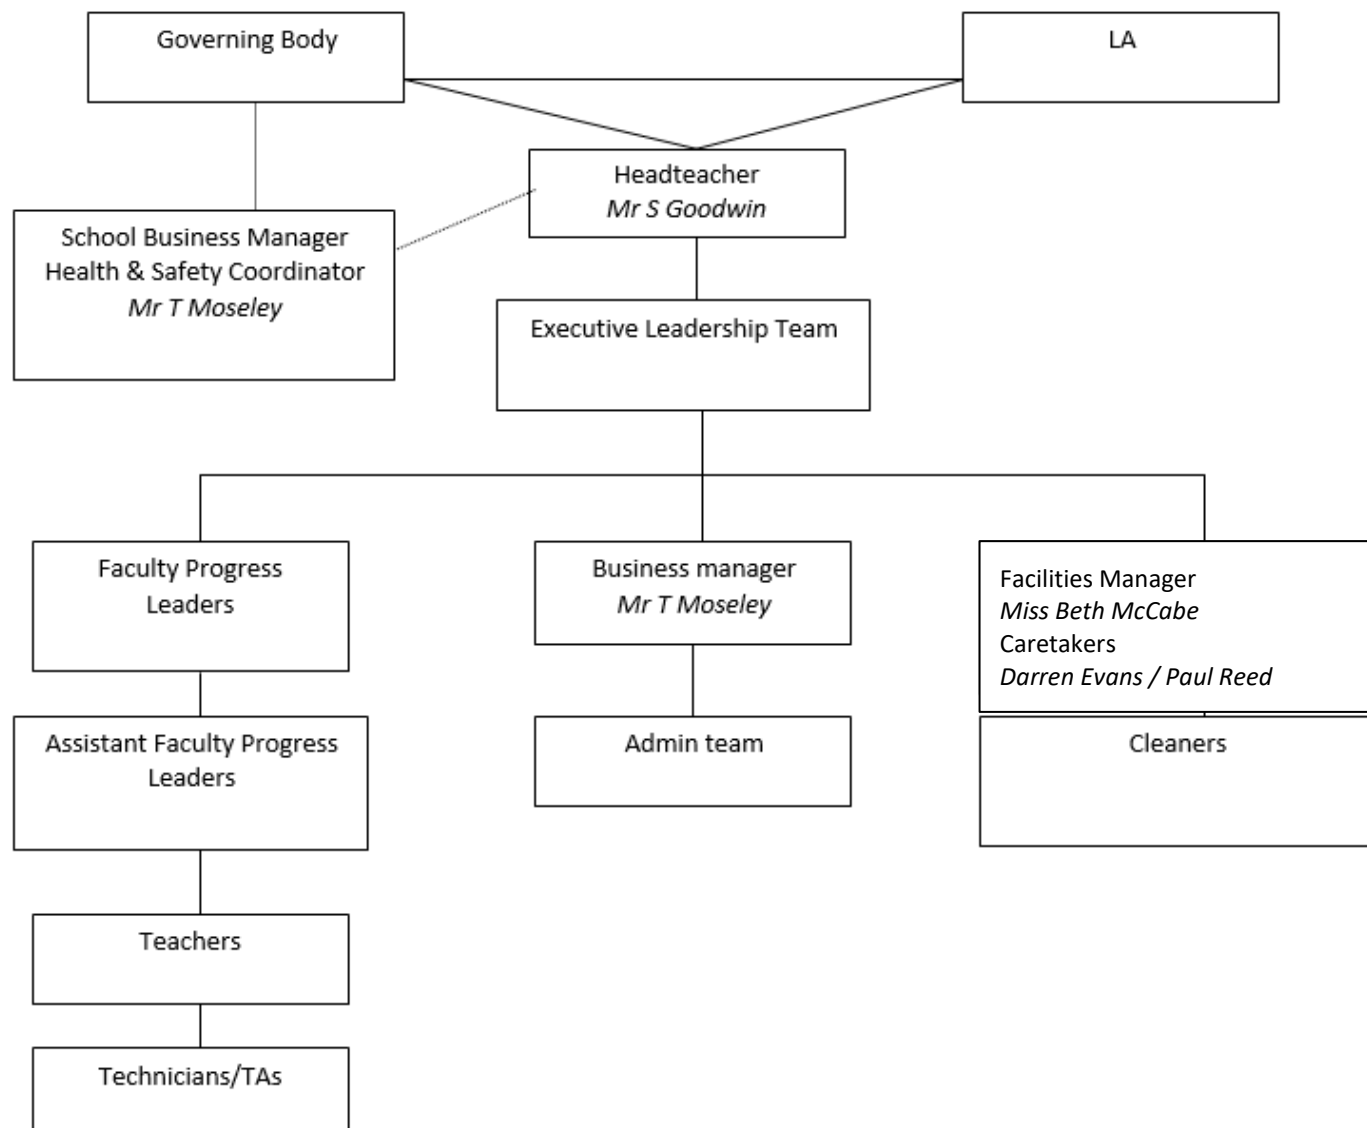

Level 2 SCHOOL/CYPD	Level 2 WSSL
<ul style="list-style-type: none"> <li>● Draw up departmental procedures and review annually. – Faculty Progress Leader (FPL)</li> <li>● Arrange for staff to be given training and information. – School Business Manager (SBM)/FPL</li> <li>● Ensure procedures are followed in the department. - FPL</li> <li>● Act on reports from Level 3 within agreed timescale and report problems to Level 1. - FPL</li> <li>● Providing and maintaining first aid kits for school staff – Office Manager</li> <li>● Conducting and reviewing risk assessments – school activities. – FPL/SBM</li> <li>● Conducting and reviewing COSHH assessments – school activities. - FPL</li> <li>● Assessing new and existing school equipment. - SBM</li> <li>● Electrical appliances (School Equipment) - SBM <ul style="list-style-type: none"> <li>- Compiling register</li> <li>- Inspection</li> <li>- Maintenance</li> </ul> </li> <li>● Non-electrical appliances (School Equipment) - SBM <ul style="list-style-type: none"> <li>- Compiling register</li> <li>- Inspection</li> <li>- Maintenance</li> </ul> </li> <li>● Representation at school Health &amp; Safety Committee. - SBM</li> <li>● Assessment of PPE and work wear requirements for school staff. - SBM</li> <li>● Manage and monitor contractors under control of the school and Local Authority - SBM</li> <li>● School must obtain a Permit to Work - SBM</li> </ul>	<ul style="list-style-type: none"> <li>● Providing and maintaining first aid kits for Service Provider staff</li> <li>● Conducting and reviewing risk assessments – Service Provider activities</li> <li>● Conducting and reviewing COSHH assessments – Service Provider activities</li> <li>● Assessing new and existing Service Provider equipment</li> <li>● Electrical appliances (Service Provider work equipment and items on the Project Agreement Asset Register plus School equipment by arrangement) <ul style="list-style-type: none"> <li>- Compiling register</li> <li>- Inspection</li> <li>- Maintenance</li> </ul> </li> <li>● Non-electrical appliances (Service Provider work equipment and items on the Project Agreement Asset Register) <ul style="list-style-type: none"> <li>- Compiling register</li> <li>- Inspection</li> <li>- Maintenance</li> </ul> </li> <li>● Assessment of PPE and work wear requirements for Service Provider staff</li> <li>● Provision and issue of PPE and work wear for Service Provider staff</li> <li>● Managing and monitoring contractors under the control of the Service Provider</li> <li>● Representation at school Health &amp; Safety Committee</li> </ul> <p>Monitoring Health &amp; Safety standards in the provision of Services</p>

Level 3 SCHOOL/CYPD	Level 3 WSSL
<ul style="list-style-type: none"> <li>• Manage Fire Evacuation Procedures in line with joint Fire Safety Plan during school operational hours and during ALL TP Use. - SBM</li> <li>• Check classroom / work area is safe. – Member of staff in area</li> <li>• Check equipment used is safe before use. – Member of staff</li> <li>• Ensure health and safety procedures are followed. – Member of staff</li> <li>• Ensure protective clothing is used. – Member of staff</li> <li>• Report defects to Level 2. – Member of staff</li> <li>• Carry out special task e.g. first-aid inspections. – First aid trained staff</li> <li>• Administering first aid to school staff, visitors and students. - First aid trained staff</li> <li>• Conducting and reviewing risk assessments – school activities. – FPL/SBM</li> <li>• Conducting and reviewing COSHH assessments – school activities. – FPL/SBM</li> <li>• Ensure non-electrical equipment is safe and properly maintained. – Member of staff</li> <li>• Provide personal protective equipment to staff/pupils as identified through risk assessment. – FPL/SBM</li> </ul> <p>Ensure personal protective equipment is used correctly by staff/pupils - FPL</p>	<ul style="list-style-type: none"> <li>• Manage Fire Evacuation Procedures in line with joint Fire Safety Plan during Core Hours</li> <li>• Inspecting and testing emergency lighting system</li> <li>• Inspecting and maintaining fire fighting equipment</li> <li>• Periodic checks on means of escape, fire alarm, emergency lighting and fire fighting equipment.</li> <li>• Administering first aid to Service Provider staff and supplier partners</li> <li>• Conducting and reviewing risk assessments – Service Provider activities</li> <li>• Conducting and reviewing COSHH assessments –Service Provider activities</li> <li>• Ensure safe procedures for contractor attendance</li> <li>• Ensuring equipment is safe before use</li> <li>• Ensure Service Providers follow health and safety procedures</li> <li>• Ensure protective clothing is used by Service Provider staff</li> <li>• Carrying out routine premises checks.</li> </ul> <p>Dealing with or reporting any premises related hazards</p>

Technicians; responsibilities, roles etc.	Head of Faculty
Purchasing; chemicals, art materials etc.	Head of Faculty
Protective Clothing	Head of Faculty
Disposal of Chemicals	Head of Faculty

# MANAGEMENT ARRANGEMENTS

## 3. GENERAL RESPONSIBILITIES

### 3.1 Risk Assessments

The Head teacher on behalf of the Governing Body will assess the risks to the health and safety of their employees while they are at work in accordance with Regulation 3 of the Management of Health and Safety at Work Regulations 1999.

All risks around the building, grounds, rooms, workplace tasks, occupations, events and equipment involving will be assessed and approved by the Head teacher. These risk assessments are available for all staff to view and are held centrally in: W:\CurriculumStaff\SWHS Documents\1. Leadership and Management\Risk Assessments

Specific risk assessments relating to individual persons, e.g. employee with medical condition or young person/pupil are held on that person's file.

### 3.2 Curriculum Activities

Safety policies and Risk Assessments for curriculum activities will be carried out by relevant Heads of Faculty and subject teachers using relevant Health and Safety Codes of Practice for Design & Technology, Science, Art and PE etc. Lesson risk assessments should be incorporated in either Schemes of Work or Lesson Plans and safety within lessons should be included in lesson observations.

Secondary schools that hold radiation sources will nominate a competent Radiation Protection Supervisor Mr M Fennel (Science Assistant Faculty Progress Leader) and have access to a Radiation Protection Adviser through the LA Health and Safety SLA.

**Heads of Faculty are responsible for ensuring maintenance requirements for equipment in their areas are identified and implemented.**

The School Business Manager will identify all work equipment in an equipment register and ensure that risk assessments are carried out, identifying any relevant servicing / routine maintenance / inspection regimes, training or instruction needs, personal protective equipment requirements and authorised users.

The following equipment has been identified as likely to involve a specific health and safety risk and details are given below on inspection, statutory inspections maintenance and testing.

Department	Equipment	Inspection / Maintenance
Design Technology	Laser Cutter	Inspection carried out annually by school contractor
	Band saw	Inspection carried out annually by Dalkia
	3D Printers	Inspection carried out annually by Dalkia
	Pillar Drill	Inspection carried out annually by Dalkia
	Strip heater	Inspection carried out annually by Dalkia
	Lathe	Inspection carried out annually by Dalkia
<i>Training for all DT equipment is included in the induction to the department and staff are DATA assured for use of the equipment.</i>		

Science	Chemicals	Stored in accordance with COSHH, inspected by science technicians
	Extraction cupboards	Inspection carried out annually by Dalkia

PE	Trampolines	Inspection carried out annually by Dalkia
	Climbing frames	Inspection carried out annually by Dalkia
	Benches and general PE equipment	Inspection carried out annually by Dalkia
<i>PE staff undergo training which is monitored by the FPL and updated in faculty risk assessments for use of specialised equipment.</i>		

Food Technology	Ovens	Inspection carried out annually by Dalkia. Remedial actions are the schools responsibility.
-----------------	-------	---

## Curriculum Safety

### OBJECTIVE

To ensure that curriculum areas and practices are such that a safe environment is assured for all pupils and staff.

	<b>CYPD</b>	<b>School/CLC</b>	<b>WSSL</b>
Access and emergency exits clear		X	X
Suitable fire fighting equipment available		X	X
All vision panels clear and free from obstruction		X	X
Storerooms tidy		X	
COSHH sheets		X	
Electrical equipment		X	X
Chemical storage		X	X
Furniture		X	X
Lighting			X
Heating and Ventilation			X
Housekeeping		X	X
Cleaning		X	X
Statutory Inspections		X	X
Lesson plans, schemes of work		X	
Risk Assessment		X	X

## Health and Safety Monitoring

### OBJECTIVE

To ensure that regular monitoring of Health and Safety of the workplace is carried out to ensure the safety of pupils, staff, visitors, contractors and third party users.

	<b>CYPD</b>	<b>School/CLC</b>	<b>WSSL</b>
Regular daily checks to be carried out to classrooms, stairways, corridors, boiler rooms, kitchens, workshops, laboratories and grounds.		<b>X</b>	<b>X</b>
Regular inspections to be undertaken by management to all areas within the school.		<b>X</b>	<b>X</b>
Regular monitoring of activities carried out by the school's facilities staff, cleaners, caretaking staff and contractors.	<b>X</b>	<b>X</b>	<b>X</b>
regular monitoring of pupil and teaching staff's activities within the school, as part of the Local authority SLA	<b>X</b>	<b>X</b>	
Health and Safety audits will be undertaken by the CYPD every two years to ensure safety compliance.	<b>X</b>		<b>X</b>
Heads of Faculties will be responsible to ensure safety standards within their departments. This will include ensuring risk assessments are carried out and are regularly reviewed.	<b>X</b>	<b>X</b>	

### 3.3 Non-curriculum Activities

Risk assessments for non-curriculum activities will be carried out by competent persons in accordance with local authority guidance.

Risk assessments will be reviewed on an annual basis, when there has been a change in location, equipment, people and procedures and always after a reported accident and/or near miss. Staff carrying out activities should be made aware of risk assessments and any changes to risk assessments relating to their work.

### 3.4 Educational Visits

Well planned and executed educational visits provide our pupils with valuable experiences which enhance their learning at school. Providing a variety of 'real-life' opportunities for our children enables them to achieve a fuller understanding of the world around them through direct experience. Educational visits are an essential element of good practice.

#### Purposes

Educational Visits can provide stimulus and support to work being covered as part of the school curriculum. It may be that a visit provides an effective stimulus at the start of a unit of work; alternatively teachers may decide to use an educational visit at any time during a project to enhance and support the curriculum.

Wherever or whatever the venue, teachers should ensure that the educational benefits to the children are maximised.

#### Guidelines

The organisation of an educational visit is crucial to its success. With rigorous organisation and control, a visit should provide a rich, learning experience for the pupils. EVOVLE is in use in Wirral Schools and in accordance with the Local Authority's Guidance for the Management of Learning Outside the Classroom (LOtC) and Offsite Visits, it is a requirement that all school's use the EVOLVE system.

The Educational Visits Coordinator Elizabeth Taylor (Finance & Premises Assistant) will be required to implement the guidance as appropriate when the school undertakes offsite visits.

**Outdoor Education Advisers' Panel <http://www.oeap.info/>**

### 3.5 Inspections

Proactive monitoring involves actively looking for hazards and identifying risks on a regular basis in order to rectify them before they can cause harm. Head teacher on behalf of the Governing Body will ensure that a schedule of proactive monitoring is in place, which includes the following as a minimum standard:

- A general workplace inspection of the site will be conducted termly and be undertaken / co-coordinated by a group of stakeholders e.g, Head teacher, health & safety coordinator, staff representatives, site manager, business manager etc.
- The person(s) undertaking the inspection will complete a report and action plan in writing and submit this to the Head teacher
- Responsibility for following up items detailed in the safety inspection report will rest with the School Business Manager.
- Monitoring inspections of individual departments will be carried out by Heads of Faculty or nominated staff. Advice and pro forma inspection checklists can be found in CLEAPSS (for sciences and DT)
- An annual inspection, using the School's Inspection Checklist or similar, by the School Business Manager will be undertaken and an action plan created, this will be reported back to the full governing body meetings.

**A copy will be sent to the Health & Safety Team, who will review the action plan and this will form the basis of the next audit of the school.**

### 3.6 Audits

In order to monitor compliance in relation to health and safety legal duties, all community maintained and voluntary controlled educational establishments must provide evidence of an audit carried out by a competent person as follows,

- Special Schools – annual
- Secondary – every 2 years
- Nursery / Primary – every 3 years

The LA Health and Safety team will carry out a programme of audits for all educational establishments who 'buy back' the SLA service

For community maintained and voluntary controlled educational establishments who do not 'buy back' the Schools SLA service, they must ensure that audits are carried out by an independent and competent person, as required above

### 3.7 Training

The Head teacher on behalf of the Governing Body will ensure:

- Through the risk assessment process, identify essential safety training needs and ensure that it is delivered as required including refreshers
- Suitable health and safety awareness training is provided to those in management or leadership roles.
- Training records are available for all employees
- There is a formal induction for permanent /temporary/supply /volunteer employees to bring their attention to their health and safety responsibilities and the arrangements in place for health and safety. This includes risk assessments for the activities they will carry out in school.

## 3.7 Accident Reporting

### Management Guidance - Definitions

- An accident is an unplanned, unwanted event however minor that causes injury to people, damage to property or other loss.
- A near miss is a similar unplanned event without consequent injury or loss, but which had the potential to do so. Reporting these incidents help identify any weaknesses in operational procedures as deviations from normal good practice may only happen infrequently but could have potentially high consequences
- A dangerous occurrence is something that happens in connection with the work of the school and is included in the relevant schedule of the RIDDOR Regulations.
- A lost time accident is an accident which is not RIDDOR reportable but involves lost time from work or possibly required first aid treatment.
- The RIDDOR Regulations are the Reporting of Injuries, Diseases and Dangerous Occurrence Regulations 1995
- Industrial Injury and industrial illness have specific meanings that relate to state benefit payments. For the purpose of these arrangements industrial injury is any work-related injury or illness. A work-related injury is caused or exacerbated by the particular work tasks, demands or environment that obtains at work.

In accordance with the Reporting of Injuries, Diseases & Dangerous Occurrences Regulations 2013 and Local Authority guidance the Head teacher on behalf of the Governing Body will report :

- Accidents, dangerous occurrences, and near misses on the standard Local Authority Incident and Dangerous Occurrence Report (M13) form.
- Incidents of physical violence and verbal abuse on the standard Local Authority Incident Report (MV92) Form.

Copies of these forms are available from the main office or W:\CurriculumStaff\SWHS Documents\1. Leadership and Management\Health & Safety

The Head teacher will countersign the report form before the original copy is sent to the Health & Safety Department immediately for a decision if the incident is to be reported to the HSE as required by RIDDOR. A copy should also be retained at the establishment.

It is the duty of the school to ensure reports to the enforcement authority under RIDDOR 2013 and for civil liability claims. Those schools purchasing the Health and Safety SLA with the LA will be supported in RIDDOR reporting.

**Schools using other providers should seek assistance from that provider where required but must provide a copy of the RIDDOR report to the local authority within 1 week of the report being completed.**

Individual accident report forms are used to record all minor incidents to children and young people and school staff. Copies can be found in the main office. More significant incidents and those involving visitors, contractors and members of the public must be reported to CYPD's Health & Safety Section using the forms described above.

Accident statistics will be monitored for trends and a report made to the Governors/Senior Management Team, as necessary.

The Head teacher or their competent nominee will investigate accidents and take remedial steps to avoid similar instances recurring. Faulty equipment, systems of work, plant, equipment, fittings etc. must be reported and attended to as soon as possible.

### **WSSL / Dalkia LTD Notification**

- Contact WSSL through the Dalkia LTD FM Helpdesk immediately on 0151 832 4601, following the occurrence of accident, incident or near miss if accident is caused by a building or equipment defect, failure or damage.
- Advise the Helpdesk of any health and safety issue that requires immediate attention i.e. damage caused by the incident/accident to the building or equipment.
- Forward details of the incident, excluding personal details, to Dalkia LTD staff immediately, who will complete the appropriate Dalkia LTD accident report forms..
- Attach or forward to both CYPD and WSSL any supplementary evidence relating to the accident/incident e.g. photographs, witness statements etc.

All correspondence from individuals, solicitors, etc. should be forwarded unanswered to both WSSL and the CYPD Health and Safety Section. Both parties will acknowledge receipt of the correspondence and reply to the claimant within specified legal guidelines.

## 4. BUILDINGS

### 4.1 Asbestos

In accordance with the control of Asbestos at Work Regulations 2012 Head teacher on behalf of the Governing Body is the 'responsible person' and will ensure:

- A current and valid asbestos survey have been carried out (via Wirral Council Asset Management Team) or other contractor WSSL.
- The school is re-surveyed every 3 to 5 years.
- There is an Asbestos Management Plan held on site together with an action plan.
- Carry out a risk assessment of any work with asbestos and asbestos-containing materials in order to determine whether it is 'licensable' (work notifiable to the HSE at least 14 days in advance of starting intended work), 'notifiable non-licensed work' or 'non-licensable'.
- Only contractors licensed by the HSE will be used for licensable of asbestos-containing materials and advice will be sought by the competent Asset providers prior to commencing the work.
- In order to ensure that no fibres are released during the works, only competent contractors will be used for 'notifiable non-licensed' and 'non-licensable work' of asbestos-containing materials and a Permit to Work authorizing the works will be completed prior to starting. Advice will be sought by the competent Asset providers prior to commencing the work.
- The person who assists the Head teacher in the management of asbestos within the school is WSSL/Dalkia who is responsible for ensuring that,

- ◆ Maintaining the Asbestos Management Plan and ensuring that it is available for inspection (Corporate retentions policy 40 years).
- ◆ All remedial actions have been carried out.
- ◆ The asbestos register is held in the caretaker's office and will be made available to all staff, visiting contractors and their employees prior to carrying out inspections, maintenance, repair or construction activities who will sign the 'signing in' sheets. These will be held in the Asbestos Management Plan.

*Note: areas such as those above 3m in height, ceiling voids, etc. will not have been surveyed and thus asbestos should be presumed to be present in such areas until confirmed otherwise. This includes even small jobs such as installing telephones or computers, putting up shelving, display boards or installing security services.*

- ◆ **Ensuring that under no circumstances staff drill or affix anything to walls without first obtaining approval.**
- ◆ They minimise the potential for accidental exposure when work is to commence on assumed or identified asbestos that is not licensable works by controlling working methods of staff and contractors through the completion of a risk assessment and a permit to work.
- ◆ The asbestos log is maintained and that any changes are notified to Wirral Council, Asset Management Team immediately. This will be held in the Asbestos Management Plan.
- ◆ If there is a potential to disturb asbestos containing materials (ACM), all relevant employees are clear on the location. Time, date and persons notified will be held in the Asbestos Management Plan.
- ◆ All work on the fabric of the building or fixed equipment by school staff or contractors is entered in the Asbestos Management Plan and signed by those undertaking the work.
- ◆ The WSSL/Dalkia receives training every 3 years to ensure they can fulfil their responsibilities and maintain records in the Asbestos Management Plan.
- ◆ In January every year they carry out an annual visual inspection of asbestos containing materials on site is conducted, recorded in the asbestos log. A copy of the log together with any damaged known or suspected asbestos materials are sent to the Local Authority's Asbestos Management Team,

Technical Services, Cheshire Lines, (0151 606 2353). These will be held in the Asbestos Management Plan.

- ◆ The Asbestos Register and Management Plan is retained for future inspection

**Note: in accordance with the Asbestos at Work Regulations 2012, the Local Authority's Asbestos Management Team is organizing new survey's for schools with Type 1 surveys. Further information can be obtained by contacting the team on 0151 606 2353.**

## 4.2 Legionella

In accordance with the requirements of the HSE's Approved code of Practice for the control of Legionella L8, the Head teacher on behalf of the Governing Body will be the 'responsible person' and will ensure:

- That the use of systems that give rise to a foreseeable risk of legionellosis is avoided or, where this is not reasonably practicable, written schemes for minimising the risk from exposure are prepared, implemented and monitored
- A current legionella risk assessment is in place and a management control programme implemented. [Nominated competent persons are appointed by the Dalkia to undertake Risk Assessments throughout].
- The risk assessment is reviewed every 2 years or when there is significant change to the system or use of the building.
- Ensure appropriate statutory and evidential records are maintained for each premises including:
  - findings of the risk assessment
  - implementation details of the written scheme
  - the results of any monitoring, inspection or test including dates and conducted by whom
- Statutory monitoring will be covered by regular checks undertaken by the nominated competent person and will address any issues that are highlighted by the Risk Assessment.
- Additional checks will be required particularly where there are showers and after periods of non-use e.g. summer holidays and these requirements will be addressed by (WSSL/Dalkia). These should be recorded.
- Thermostatic temperature control valves are maintained on an annual basis to ensure correct operation.

**A copy of the legionella checks are stored in the Caretakers Office**

## 4.3 Fire

Under the Regulatory Reform (Fire Safety) Order 2005, the School Business Manager on behalf of the Governing Body is the 'responsible person' and is responsible for ensuring:

- A current fire risk assessment is located in Fire log book. Duplicate copies are located in the Business Manager's office and the main office.
- The fire risk assessment is reviewed on an annual basis or when there are changes to the building.
- Remedial actions identified in the Fire Risk Assessment have been completed and signed off.
- Dalkia complete their own Fire Risk Assessment, it is completed every 2 years and reviewed 12 months after.
- The School Business Manager is the Responsible Person for Fire Safety and for ensuring the fire risk assessment is undertaken and implemented.
- Written fire/emergency procedures are made available to all staff and included in the establishment's induction process.
- An outline of evacuation procedures are made available to all contractors / visitors and are posted throughout the site.
- Fire plans have been drawn up to assist the fire and rescue service on arrival. These are retained in the fire logbook.
- Emergency exits, fire alarm call points, fire appliances and assembly points are clearly sign posted with signs conforming to the "Health & Safety (Safety Signs and Signals) Regulations 1996. The locations of the above are identified on the school's site plan.
- Where activities are being provided by non-school staff such as a third party provider, the school will provide appropriate information, instruction and training on the establishment's emergency procedures and emergency contact details.
- All school staff are considered to be fire marshals as they have specific responsibilities for assisting the safe evacuation of children and young people in their charge.
- Fire drills are carried out termly and performance recorded on the Fire drill evaluation sheet and retained in the fire logbook.
- The school will maintain an inventory of all substances on site within the fire log book and review this annually, indicating on plans their location within the building. All hazardous substances used in Science, Design Technology and Art must be stored in accordance with CLEAPSS guidance. [www.cleapss.org.uk](http://www.cleapss.org.uk)
- Displays- the Fire Authority recommends a maximum of 20% display of the total surface area, limiting display to 3m in length with a 1m fire break.
- All documentation relating to fire safety including inspection, service, maintenance and repair records will be maintained in the school's fire log book. Duplicate copies can be found in the main office and school business manager office.
- Emergency contact and key holder details are maintained by the School Business Manager and provided to Wirral Community Patrol / remote call centre.
- The following local checks are carried out and logged by Caretakers:
  - Daily checks of fire evacuation routes to ensure that they are clear
  - Weekly fire alarm call point tests
  - Monthly check of emergency lighting
  - Monthly Fire Marshal Inspection Checklist to include:
    - Fire doors to ensure they are in a good condition and easily opened
    - Emergency escape routes
    - Fire fighting equipment to ensure that it is the correct location and not discharged
- The following inspection and maintenance requirements are carried out by a contractor and inspection records/certificates are available:
  - Maintenance and service of the fire alarm system

- Maintenance and inspection of the emergency lighting and batteries, including full discharge test.
- Annual firefighting equipment inspection
- 6 monthly testing of fire shutters and annual maintenance

## Fire Safety

### Objective

To comply with the Regulatory Reform, Fire Safety Order 2005

	CYPD	School/CLC	WSSL
Completion of Fire Risk Assessment for premises (Reassessment in event of incidents and changes to structures, layouts, functions, etc.)	X	X	X
Produce School Fire Plan for premises during school operational hours and activities	X	X	X
Produce School Fire Plan for third party lettings	X	X	
Identification of personnel with key responsibilities for fire safety	X	X	
The adequacy and maintenance of fire alarm and detection systems	X	X	X
Ensure that the provision of fire fighting equipment is adequate and is maintained			X
Ensure that the provision of means of escape is adequate and is maintained including emergency lighting			X
Provide and maintain Zone Plan, showing a layout of the School and the Zones associated with the Fire Alarm panel			X
Display of Fire Safety Signs showing fire exits, escape routes, alarm call points and action to be taken in the event of a fire			X
Maintaining Fire Log Book			X
Monitoring of Fire Log Book to ensure all inspections, tests, repairs are carried out in accordance with WSSL and CYPD Policies and Procedures			X
Instruction of school staff, contractors, visitors on fire safety procedures		X	X
Ensure that regular fire drills are carried out during school operational hours and recorded.		X	X
Ensure that regular fire drills are carried out outside of school operational hours for the benefit of staff, such as cleaners, who do not work during school hours and that they are recorded			X
Ensuring safe and speedy evacuation of all persons on site during Core hours (Dalkia / Chartwells will only be accountable to getting their own staff out of the building and will report back to the school Fire		X	X

Warden/Marshal once everyone has been accounted for.)			
Ensuring safe and speedy evacuation of all persons on site during Third Party Lettings		<b>X</b>	
Ensure that means of escape, fire safety signs, emergency lighting fire alarm call points and fire fighting equipment are kept free from obstruction at all times.		<b>X</b>	<b>X</b>
Ensure that all vision panels are kept free from obstruction at all times		<b>X</b>	<b>X</b>
Ensure suitable numbers of staff are appropriately trained in the safe and correct use of emergency evacuation equipment		<b>X</b>	
Reporting of faults to WSSL through the Dalkia LTD Helpdesk		<b>X</b>	<b>X</b>

## 4.4 Housekeeping

The Head teacher on behalf of the Governing Body is responsible for ensuring maintaining good standards of housekeeping across all areas of the school by carrying out site inspections. Areas include:

- Floors and Gangways:
  - Wet, greasy, dusty or dirty floors; spills or splashes of solids or liquids etc.
  - Unsuitable floor surface or covering; trailing cables; congestion; obstructions; inadequate lighting
- Furniture and Fittings
  - Check circulation routes are not impeded by the arrangement of furniture.
  - Check furniture is not damaged or unstable.
  - Check no furniture is in a dangerous condition, (rough wood, splinters, protruding screws, nails, loose components etc.
- Storage
  - Check accessibility, are shelf mountings secure, are shelves overloaded, are bulky items stored at waist height – not at high or low level, is storage logical and tidy, are storage areas kept secure, is access equipment available for high shelves egg kick stool or step ladder
- Waste
  - Are there adequate containers for disposal of waste, are they emptied regularly, check for waste accumulating on escape routes
- Welfare Facilities
  - Is there adequate storage for coats, personal belongings are facilities for making refreshments and eating snacks kept clean and tidy, is food stored in appropriate containers
- Fire
  - Flammable materials will kept away from heat and ignition sources, stored in approved
  - correctly labelled containers.
  - Fire exits, call points, fire extinguishers clearly marked, and free from obstruction.

## 4.5 Lighting

The Head teacher on behalf of the Governing Body will ensure that:

- Each room or other space within the school will have lighting appropriate to its normal use and which satisfies any more specific requirements.
- The maintained illuminance of teaching accommodation must not be less than 300 lux on the working plane.
- Where visually demanding tasks are carried out there must be maintained illuminance of not less than 500 lux on the working plane.
- Light fittings must not produce a glare index of more than 19, where glare index measures the direct glare from light fittings which might be seen, for example, by someone looking up from their work.
- It is the responsibility of all staff to report any defects so that appropriate repairs can be instigated.

## 4.6 General Building Risk Assessments

The Head teacher on behalf of the Governing Body will ensure that there are risk assessments for,

- Slip, Trip, Fall
- Movement around school
- Housekeeping
- Corridors and stairs
- Main Hall

This list is not exhaustive and other areas can be assessed based on the risks involved.

The risk assessments are to be reviewed on an annual basis or when there are changes to the building.

### Building Maintenance

#### OBJECTIVE

To ensure that the premises are maintained in condition that provides the necessary standards for health,safety and welfare.

	CYPD	School/CLC	WSSL
Carrying out planned maintenance			X
Carrying out reactive Maintenance			X
Hazard and fault reporting	X	X	X

## Plant and Equipment Monitoring

### OBJECTIVE

To ensure that work equipment and environment conditions apply with the relevant regulations

	CYPD	School/CLC	WSSL
To ensure that regular testing of ventilation systems within the school, which includes kitchens, DT, Science and IT areas are carried out in accordance with statutory regulations.			X
To ensure that testing of slings, hoists and roller shutters is carried out In accordance with statutory regulations.			X
To ensure that testing and maintenance of fixed gymnasium equipment Is carried out in accordance with statutory requirements and CYPD Guidance.			X
Regular user checks to be carried out by the various faculty departments. This will include fume cupboards, local exhaust ventilation equipment, pressure vessels i.e. autoclaves, pressure cookers and steam engines.		X	
User checks to be carried out on woodwork and metal work machines.		X	
Regular maintenance to be carried out on equipment i.e. kitchen equipment, woodwork and metal work machines, cleaning equipment		X	
Regular checks and maintenance to be carried out on all hand tools.		X	X
Regular inspection and maintenance of the electrical installation in accordance with NICEIC, Electricity at Work Regulations and Building Control Regulations and the requirements for an Entertainment License In accordance with Local Authority guidelines			X
To ensure regular inspections and maintenance of water systems are carried out in accordance with The Control of Legionella Bacteria in Water Systems Approved Code of Practice			X
To ensure regular inspection and maintenance of gas installation in Accordance with the Gas Safety (Installation and Use) Regulations 1998			X
To ensure that an Asbestos Survey is carried out, recorded and safe systems of work implemented for contractors working on premises in accordance with the Control of Asbestos at Work Regulations 2012			X
To ensure visual inspections are carried out of asbestos containing materials (as identified in the Asbestos Survey) every 6 month and findings recorded			X
To ensure that all contractors and caretakers undertaking maintenance/repairs are made aware of the Asbestos Register and presence of Asbestos Containing Materials in the area where work is being carried out and that a signature is obtained acknowledging sight of the register		X	X
To ensure regular inspection, testing and maintenance of fire detection			X

systems in accordance with the Fire Precautions (Workplace) Regulations and the School's Fire Risk Assessment			
To ensure regular inspection and maintenance of security systems i.e. intruder alarms, external CCTV, external lighting, Digital locks, fencing, etc.			<b>X</b>
To ensure regular inspection and maintenance of internal CCTV security systems		<b>X</b>	

## 4.7 Security

The Head teacher on behalf of the Governing Body will ensure that that security of the site is risk assessed in order to provide a safe and secure environment for children, employees and visitors to

The Head teacher on behalf of the Governing Body will ensure:

- There is a Security risk assessment and all actions have been implemented.
- The risk assessment is on an annual basis or when there are changes to the building.
- If necessary expert advice is obtained to determine the security risks and precautions required to deal with them.
- The intruder alarm is monitored and inspected and records are available
- Employee are provided with enough resources, information and training to implement the security procedures.
- Ensure that all visitors, contractors and agency employee adhere to the security arrangements.

### Security

#### OBJECTIVE

To ensure the safety of all pupils, staff, contractors and visitors through good security arrangements

	CYPD	School/CLC	WSSL
Written security policy		X	X
Lone working arrangements		X	X
Supervision of pupils		X	
Arrangements for visitors		X	X
Controlled access and egress points		X	X
Perimeter fencing (if used for school access)			X
Cash on premises		X	X
CCTV		X	X
Security risk assessments		X	X

## 4.8 Extended Schools and Lettings

The Head teacher on behalf of the Governing Body will ensure any Lettings are managed by the School Business Manager and Lettings Officers following Local Authority Guidance.

All lettings customers are issued with and required to return a signed copy of the school's booking conditions document. This document outlines acceptable and unacceptable actions whilst onsite including health and safety arrangements around fire safety, evacuation and rules and procedures. All lettings customers are also issued with fire evacuation points including exit routes and assembly points.

A copy can be found in W:\SeniorManagement\TPI new\TPI\1 Booking conditions

### Lettings and Third Party Use

#### OBJECTIVE

To ensure that Third Party use of school premises is managed effectively so that persons using the premises do so without risk to themselves or others.

	CYPD	School	TP User
Fire Safety		X	X
Building Security		X	
Safety management		X	X
Provision of first aid		X	X
Accident Reporting		X	X

## 5. GROUNDS

### 5.1 Vehicles on site and use of private vehicles

The Head teacher on behalf of the Governing Body recognise that the movement of vehicles presents a foreseeable risk in a school environment and will ensure: If pedestrian routes within the site are not clearly defined and segregated from vehicles a risk assessment should be in place demonstrating the controls in place to mitigate the risk to pedestrians.

- Vehicular access to the school is restricted to school staff and visitors only and not for general use by parents / guardians when bringing children to school or collecting them.
- School gates are kept shut between [9am – 2:45pm]
- Children's and parents' access shall be kept clear of vehicles
- Access from the road shall be kept clear for emergency vehicles.

### 5.2 Snow and Icy Conditions

The Head teacher on behalf of the Governing Body recognises that snow and icy conditions could lead slips and falls and is to,

- Carry out risk assessments covering the hazards associated with snow and ice covering both the premises and the occupational risks in clearing the snow and ice
- Monitor weather conditions by visiting a weather service site such as the Met Office, as prevention is the key, and take action whenever freezing temperatures are forecast.
- Consider the weather conditions and if severe, or the situation becomes prolonged, then alternative provision for the clearance of snow and ice will have to be found or consideration given to site closure in the interests of safety
- Prioritise areas that need gritting, e.g. access path from the highway to the main entrance of the school, the main route from the staff car park to the staff entrance, emergency escapes, etc
- Ensure all staff are aware of the risks and their responsibilities for following the designated paths and access routes when such conditions exist
- Continue to reassess what is reasonable for you to do as weather conditions can change quickly
- Provide the necessary resources equipment to the site team including grit, shovel and grit spreader

### 5.3 External play equipment

The Head teacher on behalf of the Governing Body recognises that playground and sports equipment present foreseeable hazards in a school environment and will ensure:

- Risk assessments are undertaken to identify all hazards and control measures
- External play equipment will only be used when supervised.
- Daily visual inspections are carried out by Performance faculty staff
- Pre-use inspections are carried out by all users
- Equipment should be checked daily by Performance Faculty Staff for any apparent defects
- Termly formal inspections are carried out by Performance Faculty and recorded \*
- Annual inspection will be carried out by a suitably competent contractor appointed by WSSL. Current provider is SportsSafe Records of all inspections to be kept on site.

\* Or as recommended by the installer/manufacture of the play equipment

## 5.4 Tree safety and grounds maintenance

The Head teacher on behalf of the Governing Body recognises that the grounds of the school can present significant hazards if not managed and maintained in a safe condition and will ensure that:

- Risk assessments are undertaken on the grounds and the maintenance activities that are carried out. e.g. leaf blowing, mowing, strimming
- Employees will only use equipment for which they are trained in line with the Provision & Use of Work Equipment Regulations 1999
- Professional tree inspections and maintenance are carried out where applicable and that records of this work are available.
- Visual grounds inspections and maintenance are carried out as necessary and that records are available.

## 5.5 General Grounds Risk Assessment

The Head teacher on behalf of the Governing Body will ensure that there are risk assessments for,

- Site Inspections (termly)
- Playgrounds
- MUGGA pitches
- Ponds

This list is not exhaustive and other areas can be assessed based on the risks involved.

New risk assessments are to be carried out an annual or termly basis or when there are changes to the grounds.

## 6. ROOMS

### 6.1 General Rooms Risk Assessments

Where required, the Head teacher on behalf of the Governing Body will ensure that there are risk assessments for,

- Classrooms
- Offices
- Finger trap
- ICT
- Kitchen

This list is not exhaustive and other areas can be assessed based on the risks involved.

The risk assessment is to be reviewed on an annual basis or when there are changes to the rooms.

## 7.TASKS

### 7.1 Chemical Safety-Control of substances hazardous to health (COSHH)

Under the Control of Substances Hazardous to Health Regulations 2002 the Head teacher on behalf of the Governing Body has a responsibility to ensure:

- Substances identified as presenting a significant risk with a hazard symbol (for example, swimming pool chemicals) have a specific COSHH risk assessment completed
- Hazardous substances and cleaning materials are sourced from an approved supplier in order to ensure non-hazardous substances or substances that present the lowest level of risk are used.
- There is an inventory of chemicals (e.g. cleaning and maintenance products, hazardous substances kept on site including science, biology, swimming pools etc.), reviewed in annually.
- Relevant Manufacturers Safety Data Sheets available for all cleaning/maintenance substances and these have been communicated to those employees who use them.
- Employees using the substances are appropriately competent.
- All hazardous substances stored appropriately e.g. secured out of the reach of children and all containers clearly labeled and marked (e.g. flammable materials stored in appropriate flammables cabinet)
- Personal protective clothing (PPE) is issued, maintained, examined and replaced when required. Records will be kept of issuing PPE (PPE1 form)
- if required health surveillance is available .

NOTE: substances used during Science and DT lessons will be covered by CLEAPSS risk assessments and advice

**Management of Chemicals**  
**OBJECTIVE**

To Comply with the requirements of the Control of Substances Hazardous to Health Regulations  
2002

	<b>CYPD</b>	<b>School/CLC</b>	<b>WSSL</b>
Completion of suitable and sufficient risk assessments for substances used for work activities (e.g. adhesives, paints, cleaning agents) and substances generated during work activities (e.g. fumes from soldering and welding, dust)			<b>X</b>
Completion of suitable and sufficient assessments for substances used in curriculum activities, i.e. DT, Sciences, Art, Textiles, etc.		<b>X</b>	
Ensure that employees/users are properly informed, trained and supervised		<b>X</b>	<b>X</b>
Ensuring safe and secure storage facilities are provided for all substances		<b>X</b>	<b>X</b>
Ensuring all products are labeled and contain adequate health and safety information		<b>X</b>	<b>X</b>
Ensure that control measures are used and maintained		<b>X</b>	<b>X</b>
Carry out appropriate health surveillance for persons exposed to one of the substances listed in Schedule 6 to COSHH.		<b>X</b>	<b>X</b>
Prepare plans and procedures to deal with accidents, incidents and emergencies.		<b>X</b>	<b>X</b>
Provision and maintenance of personal protective equipment		<b>X</b>	<b>X</b>
Safe and correct disposal of substances in accordance with Waste Management Regulations and Local Authority guidelines		<b>X</b>	<b>X</b>

## 7.2 Work at Height - use of ladders and step ladders

In accordance with Working at Height Regulations 2005, the Head teacher on behalf of the Governing Body has a responsibility to ensure:

- Work at height will be avoided where it is reasonably practicable to do so.
- Where this is not possible e.g. putting up displays, changing light fittings, etc. the School Business Manager will ensure a risk assessment is conducted taking account of the fact that working from ladders and step ladders can only be carried for ,
  - 'low risk' activities, e.g. change a light bulb, putting up displays, etc.
  - light work (up to 10kg) and
  - less than 30 minutes for any activity

Note: for more than 5 minutes duration for work above 2 meters and need to use mobile tower scaffolds

- Where this is not possible and there are site specific hazards, e.g. cleaning gutters, collecting balls from roofs, etc., WSSL will ensure a site specific risk assessment is conducted prior to carrying out the work and the risk reduced as far as is reasonably practicable including identifying measures for fragile roofs, guard rails, planning for emergencies and rescue, etc.
- A copy of the assessments will be provided to employees authorised to work at height.
- Employees who are required to work at height will receive appropriate training that will be refreshed every 3 years.
- Employees who are required to work at height will have access to appropriate equipment, e.g.
  - Foot stool (elephants foot) for teaching and support staff
  - Step ladders, ladders, platforms for the site team
- Employees who have access to the equipment will carry inspections prior to use.
- Regular inspections of all work at height equipment will be conducted by the School Business Manager]. All equipment must be tagged/numbered and a ladder register maintained. Records will be kept.

## 7.3 Manual Handling

Under the Manual Handling Operations Regulations 1992 the Head teacher on behalf of the Governing Body will ensure all manual handling activities which present a significant risk to the health and safety of staff, whether they involve the manual handling of people or objects, will ensure:

- Where it is not reasonably practicable to eliminate these activities, a risk assessment involving objects or people will be carried out and the risk reduced as far as is reasonably practicable in accordance with the Manual Handling Operations 1992.
- When a risk assessment indicates that employees may be lifting loads above the recommended safe lifting levels, a specific assessment must be carried out identifying suitable control measures following the hierarchy of control.
- The assessment must be recorded in writing shared with employees.
- Specific training will be provided to employees that are required to carry out manual handling of loads and manual handling of people. For objects this needs to be refreshed every 3 years whilst for people it needs to be annually refreshed.
- Information and instruction is provided to employees on the health risks associated with manual handling.
- Employees are not expected to carry out manual handling operations which are unsafe or beyond their individual capabilities (managers must take account of employees concerns with regards to manual handling, reviewing the risk assessment if necessary).
- Any equipment provided to eliminate manual handling e.g. hoists, cranes, pallet trucks, etc are inspected as per the manufacturers recommendations

## Manual Handling

### OBJECTIVE

To ensure that manual handling operations are carried out in accordance with School, CYPD and Dalkia LTD FM policies and procedures

	CYPD	School/CLC	WSSL
Conducting manual handling assessments		X	X
Providing manual handling aids		X	X
Providing manual handling training		X	X
Planning manual handling operations		X	X
Servicing, maintaining, repairs of mechanical aids (trolleys, etc)		X	X
Reporting defective equipment		X	X

## 7.4 Lone Working

The Head teacher on behalf of the Governing Body encourage employees not to work alone in the school and where it cannot be avoided.

- Work carried out unaccompanied or without immediate access to assistance should be risk assessed to determine if the proposed lone working activity is necessary.
- Obtain permission from the Head teacher and notify him/her on each occasion when lone working will occur.
- Work involving potentially significant risks (for example work at height, operating dangerous equipment, etc) should not be undertaken whilst working alone.
- Ensure employees do not put themselves or others at risk.
- Ensure they have means to summon help in an emergency e.g. access to a telephone or mobile telephone etc.
- When working off site, (e.g. when visiting homes), notify a colleague of their whereabouts and the estimated time of return. (It is good practice to obtain background information about the child/family being visited and also to pre-plan the route if the premises are unfamiliar).

## 7.5 Driving

The Head teacher on behalf of the Governing Body recognises that employees who drive their own private vehicles while on work business or those that drive minibuses present a foreseeable risk in a school environment and will ensure:

- risk assessments have been undertaken to identify the hazards associated with driving private vehicles at work and the operation of school vehicles
- the validity of their licenses is checked annually and this information kept on file.

Employees who drive their private vehicle for work( this includes any activity in which a private vehicle is driven for the purpose of work, including travelling from the normal place of work to another location for a meeting) must also have the following checked and recorded annually using the CAR 10 form ( or equivalent).

## 7.6 Minibuses

- WSSL is responsible for undertaking checks on and the operation of minibuses in accordance with the Local Authority Guidance.
- It is a requirement for all minibus drivers to attend and pass the Wirral Council's minibus training. They are not authorised to drive the vehicle without this certificate. In addition formal authority to drive is required from the authority's transport division.

## 7.7 Violence & Aggression

The Head teacher on behalf of the Governing Body recognises that violence and aggression is a foreseeable hazard in a school environment and will ensure:

- Risk assessments are carried out to identify all possible situations and tasks during which violence and aggression may occur and what precautions are in place to reduce the likelihood. e.g. lone working, responding to intruder alarms, working with pupils with challenging behavior.
- Where it has been identified, employees will be provided with appropriate information, instruction and specific training for dealing with these situations e.g. Team Teach, MAPA, de-escalation training. Refresher training will be provided at a recommended interval.
- Suitable precautions are introduced e.g. zero tolerance notices, means of communication, CCTV, training.
- All incidents of physical assault from pupils where an injury is sustained by a member of staff or another pupil must be recorded on an M13 accident form.
- Any incidents of violence and aggression directed by third parties to staff are reported using form MV92 and follow guidance in the guidance below.
- Counselling is offered to employees following violent, aggressive or abusive behavior.

## 7.8 Noise

Under the Control of Noise at Work Regulations 2005 the Head teacher on behalf of the Governing Body will identify activities e.g. use of machinery, power tools, or petrol strimmer's by premises/caretaking staff, etc., that expose their employees and others to the damaging effects of noise e.g. hearing loss . A simple guide to establish whether a workplace requires a detailed noise risk assessment is:-

- Employees have to raise their voices to carry out a normal conversation when about 2m apart for any part of the day;
- Employees use noisy powered tools or machinery for more than half an hour each day (including employees and pupils in DT Departments);
- Employees are exposed to impact noises such as pneumatic impact tools or hammering;
- Employees and pupils playing of loud music in Music departments; and
- Employees have raised their concerns about noise levels within the service area and have requested the use of/or wear hearing protection.

It is the responsibility of Head teachers to ensure:

- A competent person carries out a suitable and sufficient noise risk assessment (Contact the Health, Safety & Resilience Team for support)
- New plant or equipment is assessed prior to procurement, for the lowest reasonable noise emitting levels. Head teachers should request specific information from manufacturers/suppliers prior to purchase/hire to ensure so far as is reasonably practicable that noise exposure is below the 2nd action level and seek guidance from the HSR Team where this cannot be achieved.
- They prevent personal exposure to noise levels exceeding the upper exposure limit values.
- They provide employees (and pupils) with adequate hearing protection and enforce its use when noise levels are above the upper exposure action value, where such exposure cannot be reduced at source.
- Hearing protection is available to employees upon request when noise levels are above the lower exposure action value.
- They arrange routine noise health surveillance within their service area when the noise risk assessment indicates a risk to employees' health.
- They arrange pre-employment health screening for all new 'at risk' employees.

- 'At risk' employees within their service area are given suitable information, instruction, and training on noise risks and the appropriate controls.
- Any conflicting issues that they cannot resolve are escalated to a senior manager.

## 7.9 Vibration

Under the Control of Vibration at Work Regulations 2005 the Head teacher on behalf of the Governing Body will carry out risk assessments of any activities that expose their employees and others to the damaging effects of vibration e.g. hand arm vibration syndrome (HAVS). Such activities might include use of machinery, power tools, or petrol strimmer's by premises/caretaking staff.

- A competent person carries out a suitable and sufficient vibration risk assessment (contact The Health, Safety and Resilience Team for assistance).
- The risk assessment is reviewed annually or when you introduce new equipment or processes
- If your risk assessment indicates that employees may be exposed above the exposure limit value or the exposure action value, any control measures which you implement are based on the general principles of prevention
- If employees are likely to be exposed above the daily exposure value, immediate action is taken to reduce the exposure below the limit value
- Records are maintained identifying what vibrating equipment employees use and how often they use them Health surveillance is provided to employees who continue to be regularly exposed above the (EAV) and records are maintained (Contact The Health, Safety & Resilience Team for advice).
- Any health surveillance records are treated as confidential (and retained for a period of at least 50 years)
- Information and training is given to employees on health risks and the control measures which are in place.
- All new employees who are likely to be exposed to vibration complete the 'initial checklist' prior to undertaking their duties (contact Occupational Health Unit )
- All existing employees exposed to vibration complete the annual vibration checklist (contact Occupational Health Unit )
- Any new equipment which is procured has the lowest possible vibration magnitude, contact the manufacturers for this information

## 7.10 First Aid

The Head teacher on behalf of the Governing Body are responsible for ensuring that adequate first aid provision and first aid facilities are in place in line with the requirements of the Health & Safety (First Aid) Regulations 1981 and will nominate a First Aid Coordinator the School Business Manager who will ensure that:

- A First Aid Needs Assessment is carried out in order to determine the provision of appropriate First Aiders during periods before and after the school day, during events, holidays and when lone working takes place.
- That First Aiders have a current certificate and that new persons are trained should first aiders leave.
- There are checks every term that the contents of first aid boxes and, if required, defibrillators are complete and replenished as necessary.
- A travel first aid kit is available and is taken by an appointed member of staff when taking a group of children out of school.

Where the first aider or Head teacher considers that hospital treatment is required the school should summon the emergency services for transport by ambulance.

If, despite being fully appraised of the situation, the emergency service does not consider it necessary for transport by ambulance, but the school consider that further medical advice is required, the school should contact the pupil's next of kin. If the next of kin cannot be contacted and/or do not have access to own transport, the school can, **only** in these **exceptional** circumstances arrange to transport the injured person using their school staff transport.

Please note: they must be accompanied by an additional responsible adult to support the injured person. A member of staff should stay with the injured child until their parents/guardians arrive at the hospital.

The following staff are available to provide first aid-

<u>Name</u>	<u>Dept</u>	<u>Type of First Aider</u>	<u>Effective From</u>	<u>Renewal Date</u>	<u>Telephone Ext</u>

PE Department  
Science Department  
Food Technology Department  
Design Technology Department  
Art Department  
Caretaker's Office  
School Kitchen

**Defibrillator Training**

All 3 day first aid staff are also trained in the use of defibrillator machines.

#### DEFIBRILLATOR MACHINES ARE LOCATED AT THE FOLLOWING POINTS:

General Office  
PE Office

\*Cabinets are not locked and have clear signage on them showing the location of the defibrillator machines. If office is locked keys can be obtained from the caretakers/lettings officer, business manager or members of staff.

### First Aid Provision and Incident Reporting

#### OBJECTIVE

To comply with The Health and Safety (First Aid) Regulations 1981 and the Reporting of Injuries, Diseases and Dangerous Occurrence Regulations 1995.

	CYPD	School/CLC	WSSL
To carry out risk assessment to identify First Aid needs		X	X
Provide training for First Aiders and Emergency Appointed Persons		X	X
To maintain training records of first aiders		X	X
To provide adequate first aid materials and equipment		X	X
To provide suitable accommodation for the administration of first aid			X
Provision of Clinical Waste Units and regular collection of waste		X	X
Maintaining high standards of hygiene and infection control procedures		X	X
Ensure first aid boxes are stocked, regularly checked and refilled		X	X
To administer treatment in accordance with the first aid training they have received		X	X
Ensure that records are kept of all first aid treatment via Incident Report form		X	X
Recording and Reporting of Injuries, Diseases and Dangerous Occurrences for school staff/activities and Third Party Users to CYPD.	X	X	
Recording and Reporting of Injuries, Diseases and Dangerous Occurrences for Service Provider, Staff and Contractors.			X
Review of accident statistics/ violence at work	X	X	X

## Management of Medicines

Governors and the head teacher ensure that an administration of medicines policy and procedures is in place in line with DfE guidance “Supporting pupils at school with medical conditions”.

Management of Medicines in Schools and Early Years Settings Checklist				
South Wirral High School				
Checklist		Yes	No	Details
1.	Does the school have a written policy for administration of medicines in school?	X		November 2022 Policies Folder: W Drive
2.	Has the school nominated responsible trained persons to administer medicines?	X		Detailed in Supporting Students with Medical Conditions policy.
3.	Is there a clear statement on the roles and responsibility of staff managing administration of medicines, and for administering and supervising the administration?	X		Detailed in Supporting Students with Medical Conditions policy
4.	Have nominated staff received appropriate information, instruction and training on the school's policy and procedures	X		Training records on National College
5.	Does the school have procedures for managing medicines on trips and outings	X		Evolve risk assessments
6.	Has the school received a written agreement from parents for any medicines to be given to a child	X		Forms stores by SENDCo and Asst SENDCo
7.	Has the school confirmed, in writing, that they agree to administer medicines	X		
8.	Is there guidance for children carrying and taking their medicines themselves	X		Detailed in Supporting Students with Medical Conditions policy
9.	Does the school maintain records for the administration of medicines	X		
10.	Do staff have access to the school's emergency procedures	X		

11.	Is a health care plan required for individuals	X		Some students have IHCPs with copies stored on Arbor.
-----	--	---	--	---

## Medicines Checklist

1.	Does the school have appropriate storage facilities taking into account temperature and security	X		Yes, locked cabinet in J2, staff in room or door locked.
2.	Is the medicine in the original container	X		
3.	Is the container clearly labeled with the name of the child, the name and dose of the medicine, the frequency of administration, the time of administration, any side effects and the expiry date	X		
4.	Are emergency medicines, such as asthma inhalers and adrenaline pens readily available	X		
5.	Does the school allow children to carry their own inhalers	X		

### See WESCOM guidance

- DfE “Supporting pupils at school with medical conditions”.

## 7.11 General Tasks Risk Assessments

Where required, the Head teacher on behalf of the Governing Body will ensure that there are risk assessments for,

- Confined Spaces
- Adverse weather
- Working with Live Electrical Equipment
- Cleaning

This list is not exhaustive and other areas can be assessed based on the risks involved.

The risk assessment is to be reviewed on an annual basis or when there are changes.

The school risk assessments will be coordinated by School Business Manager following Local Authority Guidance.

All workplace activities, locations and equipment involving teaching and non- teaching (e.g. caretaking) staff, premises and one-off activities have been assessed and approved by the head teacher.

Guidance: School to list responsible persons and area of responsibility for carrying out risk assessments, e.g. heads of departments/faculties.	
Description	Department/Responsible Person
Curriculum – e.g. sciences, DT, PE, Music, Drama, Art, ICT	Faculty Progress Leader
Non curriculum activities – e.g. movement around school, lunchtime supervision, open evenings, parents' evening, school productions, before and after school clubs for both school and fire.	Headteacher Clubs are completed by the FPL for the faculty organising the club
Non-school operated including lettings	Third party user and School Business Manager
Location Hazards -playground and play equipment, gymnasium, classroom, hall, dining room, ICT.	Faculty Progress Leader
Equipment	Faculty Progress Leader
Lessons outside Classroom	Faculty Progress Leader
Job based risk assessments teaching	School Business Manager

Job based risk assessments non-teaching e.g. cleaners, caretakers, catering, office, volunteers, midday staff etc.

School Business Manager – SWHS employed staff  
Dalkia FM for Dalkia employed staff  
Chartwells Manager for catering staff

## 8. EQUIPMENT

### 8.2 Safe use of Portable Electrical Appliances and Fixed Electrical Systems

The Head teacher on behalf of the Governing Body will ensure that portable and transportable (PAT) electrical equipment and fixed electrical systems are safe for use by employees and visitors by:

- Ensuring that there is an inventory of electrical appliances
- Portable and transportable electrical equipment is included in risk assessments
- All portable items of electrical equipment will be subject to PAT (portable appliance testing) in accordance with Local Authority Health and Safety Management Arrangements for Portable Appliance Testing and Inspection, conducted by Calbarrie
- There are records of formal test/inspection results for all electrical appliances.
- Employees who operate electrical equipment carry out visual checks prior to use.
- Personal items of equipment (electrical or mechanical) will not be brought into the school without prior authorisation and subjected to the same tests as school equipment.
- Manufacturer's instructions are available for higher risk electrical equipment and these are shared with staff.
- The fixed wiring and electrical system is inspected by an electrical contractor on a five yearly basis and the inspection reports are available. All remedial actions are completed.

#### Electrical Safety - Portable Appliance Testing

##### OBJECTIVE

To ensure that a fully comprehensive inspection and testing service for portable electrical appliances is managed

	CYPD	School/CLC	WSSL
Regular testing of portable appliances - School Equipment		X	
Regular testing of portable appliances - Service Provider Equipment			X
Repair of faulty portable appliances - School Equipment		X	
Repair of faulty portable appliances - Service Provider Equipment			X
Arrangements for use of personal equipment - School Staff		X	
Arrangements for use of personal equipment - Service Provider Staff			X
Regular inspection of all equipment (including extension leads), prior to use		X	X
Prohibit use of single multi-plug adapters		X	X
Ensure safe and correct use of single/multi-socket extension leads, prevent overloading and potential risk of overheating and/or fire		X	X

### 8.2 Work Equipment/ Lifting Equipment/ Pressure Systems

**Work equipment** is almost any equipment used by an employee, pupil, and visitor whilst at work and includes:

- Machines such as circular saws, drills, photocopiers, mowers, strimmer's, leaf blowers

- Hand tools- screwdrivers, hammers, knives, chisels
- Lifting equipment- hoists, lifting slings, stair lifts, changing beds
- Other equipment such as ladder, trolleys, water pressure cleaners
- Includes equipment which employees provide for their own use at work.

**Lifting equipment** is any work equipment, including any lifting accessories, used in lifting operations, such as hoists, goods and passenger lifts, vehicle tail lifts fitted to vehicles, cleaning cradles and its suspension equipment, tele-handlers. The 'are relevant to all activities involving the lifting and lowering of loads, whether those loads are goods, equipment or people.

**Pressure Systems** are concerned with equipment or systems which contain steam at any pressure, gases which exert a pressure in excess of 0.5 bar above atmospheric pressure or fluids, which may be mixtures of liquids, gases and vapours where the gas or vapour phase may exert a pressure in excess of 0.5 bar above atmospheric pressure. This could include, but would not be limited to, items such as compressors, air receivers, autoclaves, boilers and steam heating systems, pressure cookers and steamers, coffee machines and process plant and equipment.

The Head teacher on behalf of the Governing Body recognises that even simple hand tools can cause serious injuries through misuse, lack of training or poor maintenance. In accordance with the Provision and Use of Workplace Equipment (PUWER) Regulations 1998, Lifting Operations and Lifting Equipment Regulations 1998 (LOLER) and the Pressure Systems Safety Regulations 2000 and will ensure:

- A risk assessment of equipment is undertaken to take into consideration:
  - The individual hazards presented by the equipment
  - Appropriate selection of equipment for the task
  - Use
  - Inspection
  - Maintenance
  - Training
- All equipment has conformity with EC requirements.
- Employees will only use equipment for which they have received adequate information, instruction and training.

Note: other than the CDT Dept, only basic DIY tools can be used, e.g. drills, sanders, jig saws, etc.

Prior permission must be given by the Health and Safety for operational staff to use higher-risk tools, e.g. angle grinders, circular saws, welding tools, wood turning lathes, chain saws, ride on mowers, etc.

- Only trained persons undertake any maintenance, repairs or modifications of work equipment.
- All dangerous parts of machinery/equipment designed with guards and protection devices are provided and used in line with manufacturers' instructions.
- There are documented local safe systems of work for the use of the equipment.
- Relevant warning signs are displayed by the equipment.
- Trained users carry out pre-use inspections.
- There are documented periodical user checklists to inspect the equipment.
- Employees are required to report to the School Business Manager any problems found with plant/equipment, damaged electrical apparatus or wiring - including portable equipment and permanent wiring.
- Defective equipment will be clearly marked and taken out of service by storing in a secure location pending repair / disposal.
- All plant and equipment requiring statutory inspection and testing under health and safety legislation (i.e. steam boilers, compressors, lifting equipment, local exhaust ventilation, pressure cookers etc.) will be inspected by appropriate contractors/insurance company at specific intervals including,

- Maintenance and inspection of work equipment as required within the manufactures / suppliers' instructions.
- Detailed and thorough examination of lifting equipment who must then complete a written report. These examinations must be carried out before use for the first time, after assembly and before use at each location, and regularly, while in service, as follows:
  - 6 months, for lifting equipment and any associated accessories used to lift people
  - 6 months, for all lifting accessories
  - 12 months, for all other lifting equipment
- Whole-system maintenance programme for pressure systems that considers factors such as age, uses and the environment to be identified and detailed in a written scheme of examination. Where statutory inspections of pressure system is required, these should be entered onto a database so that arrangements for qualified inspectors to inspect the equipment or systems can be made: such inspections would need to repeated every 12 months.

### 8.3 PPE

In accordance with the Personal Protective Equipment Regulations 1992 (as amended) the Head teacher on behalf of the Governing Body will ensure that there are arrangements to ensure:

- A full risk assessment is carried out to identify specific hazards and the most appropriate risk controls.
- The assessment also identifies whether any PPE is required by employees to protect against residual risks.
- PPE is provided as a last resort, collective measures are preferable over individual measures (engineering controls, safe systems of work).
- Employees are not charged for PPE which they are issued with (including replacement PPE).
- Replacement PPE is readily available for those who require it and it is easily obtained.
- A signed record is available for the issuing of PPE to employees.
- A system is in place for the maintenance, testing and cleaning of PPE that follows the manufactures/suppliers instructions.
- Suitable storage is made available to prevent against damage, sunlight, heat, loss and contamination.
- All employees are provided with Information, instruction and training on the risk(s), which the PPE will protect, the correct application, use, maintenance and cleaning of PPE. (Manufacturers guidance is suitable).
- When issuing PPE you take account of the ergonomic factors of each individuals requirements e.g. beards, face size, hand size etc. (not a one size fits all approach) and Face Fit Testing is carried out.
- The PPE does not create another hazard by wearing it (limiting visibility, movement).
- Any PPE which is provided to employees bares the CE mark.
- Employees are supervised to ensure they wear PPE, if PPE has been identified as a risk control measure then it must be worn at all times.

## 8.4 General Equipment Risk Assessments

Where required, the Head teacher on behalf of the Governing Body will ensure that there are risk assessments for,

- Passenger lifts
- Mobile tower

This list is not exhaustive and other areas can be assessed based on the risks involved.

The risk assessment is to be reviewed on an annual basis or when there are changes.

## 9. INDIVIDUAL

### 9.1 DSE - Display Screen Equipment

The Head teacher on behalf of the Governing Body is responsible for ensuring that all employees that are computer users complete the Display Screen Equipment Self-Assessment Checklist.

- Employees are considered to be computer users if DSE is normally used continuously for more than one hour every day as a significant part of their normal work
- Employees identified as DSE users shall be entitled to an eyesight test for DSE use every two years by a qualified optician (and corrective glasses if required specifically for DSE use).
- It is the responsibility of the Line Manager and individual to ensure that all remedial actions are completed within a reasonable time scale.

#### Display Screen Equipment OBJECTIVE

To comply with the Display Screen Regulations 1992 (amended 2002)

	CYPD	School/CLC	WSSL
Adequate space provided for work-station		X	
Suitable lighting		X	X
Dedicated ICT room – notification if other rooms are used		X	X
Adjustable covering for windows		X	X
Temperature and ventilation			X
Work surface low reflective		X	X
Suitable seating in good repair		X	X
Screen size and adjustment		X	
Eye test	X	X	

Assessment of work station		X	
Cable management		X	
Pupil/Staff DSE checklist/information		X	

## 9.2 Infection Control

‘Infection control’ refers to preventative measures, which are put in place to minimise the risk of infections.

‘Contagious’ means capable of being transmitted by bodily contact with an affected infected person or object.

Head teachers on behalf of the Governing Body are responsible for ensuring that:

- A suitable risk assessment is in place which identifies
  - the hazards including Covid 19 (infectious/contagious disease)
  - the people at risk (staff, public, visitors etc.)
  - the risk control measures in place
- Procedures are in place for the safe disposal of discarded needles, syringes and sharps
- Employees receive adequate information, instruction and training (see Infection Control toolbox talk) on infection risks and controls prior to undertaking their work duties and emergency procedures / first aid procedures in case of accidental infection
- Employees are provided with suitable protective equipment for undertaking their duties. (Latex gloves should not be used as some individuals may develop an allergy)
- Suitable cleaning arrangements to prevent cross contamination are in place for your building, work area etc.
- Suitable arrangements are in place for the storage and replacement of
- personal protective equipment

## 9.3. New and Expectant Mothers

The Head teacher on behalf of the Governing Body will ensure that risk assessments on new and expectant mothers will be undertaken by the respective line manager.

- It is the responsibility of staff to inform their line manager as soon as they know they are (or are no longer) pregnant.
- The risk assessment will be reviewed on a regular basis as the pregnancy progresses.

## 9.4. Stress Management

The governors and head teacher are committed to promoting high levels of health and wellbeing and recognise the importance of identifying and reducing workplace stressors.

- The school has a stress and wellbeing policy.
- The school will refer all employees who are absent from work to the OHU
- All employees have access to Occupational Health and counselling and advice. Where counselling is identified as a possible solution the employee is signposted to the Employee Assistance Programme (EAP) or equivalent.
- The school may need to take immediate action to review the employee's job role. Appropriate actions would be discussed with the employee affected to determine what work they feel they can undertake. Reasonable adjustments may be agreed and should be entered on form M34.1.

## 9.5. Supporting pupils at school with medical needs

The Governing Body will ensure that a Supporting Pupils at School with Medical Conditions policy and roles and procedures are in place in line with Section 100 of the Children and Families Act 2014 and DfE guidance.

## 9.6. PEEP's

A personal emergency evacuation plan (PEEP) should be established with the co-operation of the person (and parents of pupils) with the impairment. The aim is to be sensitive to the needs of staff and to ensure that the dignity and safety of the member of staff is maintained at all times. All members of staff and pupils with impairment that might affect their ability to evacuate the building in an emergency should participate in a risk assessment that will determine the arrangements necessary to ensure their safe and speedy evacuation.

The Head teacher on behalf of the Governing Body will ensure that PEEP's are conducted as required.

## 9.7. Health Surveillance

The benefits of health surveillance are that it can provide information so you can detect harmful health effects at an early stage, thereby protecting employees and confirming whether they are still fit to do their jobs and check that control measures are working well by giving feedback on risk assessments, suggesting where further action might be needed and what it might be.

As a result it is the responsibility of Head teachers on behalf of the Governing Body to ensure that they;

- Have access to Occupational Health Services that can provide health surveillance
- Identify the employees that may be at risk from being exposed to any specific hazards
- Reduce or control the risk arising from the identified hazard to such a level that it is not harmful to health
- Arrange health surveillance for employees exposed to health hazards

## 10. SUPPLEMENTARY AREAS

### 10.1. Emergency Planning

Definition: “An event – or events – usually sudden, which involve the experience of significant personal distress to a level which potentially overwhelms normal responses and procedures which is like to have emotional and organization consequences.”

The Head teacher on behalf of the Governing Body will ensure that,

- There is an emergency management plan in place which firstly considers various types of emergency and how the school is placed to deal with them, and secondly to give the school community confidence when faced with a crisis.
- The emergency plan will consider arrangements for adverse weather including extreme heat.
- There are Lockdown procedures.
- Staff will be briefed on the contents of the school’s emergency plan and their roles and responsibilities on induction and an annual refresher at the start of each school year.
- Training and exercising can help ensure it is fit for purpose and that the procedures outlined in the plan for dealing with an emergency can be carried out effectively if an emergency does occur. The school will carry out a tabletop exercise, simulating an emergency situation, at least once per year.

It is the responsibility of all staff to ensure that they provide accurate contact details and notify HR Manager immediately of any changes.

#### Guidance

w: drive / curriculum staff / swhs documents / Leadership and Management / Policies / Emergency Plan

## 10.2. Contractor Management

The Head teacher on behalf of the Governing Body recognise that the use of contractors in the school environment has the potential to introduce additional hazards and risks that are not normally present and, alongside the WSSL/Dalkia, will ensure:

- The suitability and competence of the contractor is established prior to appointments by the completion of a Pre-Qualification Questionnaire (contact Wirral Council Asset Management for schools buying AM SLA).
- Detailed risk assessments and method statements are provided by the contractor for the requested works.
- They obtain a permit to work or permission to undertake works which may involve hot work, working with asbestos, use of hazardous substances, roof access, etc.
- Information, instruction and training is provided where necessary to contractors on anything which may affect their health and safety.
- The co-operation and communication between all parties involved, to ensure the health and safety of all the workplace and anyone who is likely to be
- All contractors must report to [school office / reception] where they will be asked to sign the visitors' book and wear an identification badge.
- Contractors will be issued with guidance on fire procedures, asbestos management, local management health and safety arrangements and vehicle movement restrictions.

If the contractors work involves carrying out of any building, civil engineering or construction work, then it will fall within the remit of Construction (Design Management) Regulations 2015 and it is strongly recommended that advice and assistance is sought from Asset providers prior to commencing the work.

WSSL/Caretakers are responsible for monitoring areas where the contractor's work may directly affect staff and pupils and for keeping records of all contractor work. This will include checking that

- Work is carried out in accordance with the risk assessment and method statement.
- They have sufficient knowledge of the work being undertaken in their building so that they can ensure the work is being managed and supervised.
- The contractor is escorted to their place of work and informed of local emergency procedures.
- They provide information including details of any risks that other parties could not reasonably know about [see asbestos management].
- They make staff aware of any works being undertaken and of any temporary hazards they may come into contact with.
- They report and accidents/incidents or near misses which contractors are involved in.
- They challenge any unsafe working practices.

If undertaking the role of Client under Construction (Design Management) Regulations 2015 the Head teacher on behalf of the Governing Body will ensure they have received suitable awareness training in the requirements of CDM 2015.

## Managing Contractors

### OBJECTIVE

To ensure that Contractors are competent and that risks to themselves and others are controlled

	CYPD	School/CLC	WSSL
Checking the competence of contractors		X	X
Criminal Records Bureau checks		X	X
Contractor attendance arrangements		X	X
Monitoring contractors		X	X

### 10.3. Clinical Waste

In accordance with the “Duty of Care” – Code of Practice all swabs, tissues etc. used for first aid treatment will be placed in the medical bin. Main Office

Incontinence waste such as disposable nappies, stoma bag etc. will be placed in the hazardous waste disposal unit. Disabled Shower

Items such as needles, syringes and other sharps will be placed in the “sharps bin”. Main Office

Infection control Nurse	0151 604 7750
Public Health England	0344 225 0562 opt 1opt 1

### 10.4. Supplementary Risk Assessments

Where required, the Head teacher on behalf of the Governing Body will ensure that there are risk assessments for,

- Special events
- Adverse weather conditions including working in the sun, cold/icy conditions, etc.

This list is not exhaustive and other areas can be assessed based on the risks involved.

The risk assessment is to be reviewed on an annual basis or when there are changes.

## Appendix 'A'

### Health and Safety Policy Employee Served with Policy

NAME	SIGNATURE	DATE

SWHS staff are issued with the Health and Safety policy each year and asked to digitally sign. This record indicates employees have read the attached Health and Safety Policy for the school, agree to abide the school's health and safety policy and procedures and understand their roles and responsibilities relating to health and safety. A copy of the digital register is held by the school business manager.
